Full-stack Developer with a strong foundation in both front-end and back-end technologies. Proficient in a wide range of programming languages, frameworks, and tools. Demonstrated ability to collaborate effectively in Agile environments, leveraging Scrum methodologies to deliver high-quality solutions on time.

PROFESSIONAL EXPERIENCE

Front-End Developer (Angular) – Tilde Technology

Jan 2024 – Present

- Developed reusable UI components and services, adhering to DRY principles to ensure consistent functionality and design across applications.
- Implemented a generic HTTP service across multiple projects, reducing code redundancy and improving API handling efficiency and maintainability.
- Migrating legacy AngularJS applications to modern Angular 16+, ensuring smoother performance, improved maintainability, and adherence to best practices.
- Collaborated closely with backend teams (Java, .NET) to ensure seamless integration between front-end and back-end systems.
- Actively contributed to Agile practices, including sprint planning, daily stand-ups, code reviews, and retrospectives, ensuring the delivery of high-quality solutions in every iteration.

Projects Highlights:

CSI Egypt

- Global organization that develops and maintains the most widely used supply chain standards system in the world.
- Leveraged Angular framework to implement dynamic features and ensure scalability and flexibility.
- Enhanced user experience and usability through intuitive interface design and seamless navigation.

NATIONAL DISTRIBUTION CHANNEL (NDC)

- Contributed to the maintenance and enhancement of NDC Travel, an online sales channel for Wonder Travel.
- Worked with legacy AngularJS codebase to implement new features and improve overall system performance.
- Conducted code refactoring and optimization to improve maintainability and scalability of the application.
- Collaborated with stakeholders to understand business requirements and provide technical solutions aligned with organizational objectives.

ElZatoonah (Ionic Application)

- Contributed to the development of Elzatoonah, an Ionic application designed to help users discover product prices and compare options across multiple markets.
- Implemented Angular components to enhance user interaction and facilitate seamless navigation.
- Played a key role in optimizing performance and ensuring compatibility across various devices and platforms.
- Collaborated with stakeholders to understand business requirements and provide technical solutions aligned with organizational objectives.

EDUCATION

Angular, Udacity.	2023
Front-End Web Development Bootcamp, Udemy.	2022
Bachelor of Computer Science Benha University, Benha, Qalyubia	2017 – 2021

SKILLS & OTHER

Front-End Development: HTML, CSS, Bootstrap, Tailwind, SASS, JavaScript, TypeScript, Angular
React JS, Next JS, Angular Material, Material UI.

Back-End Development: Node JS, Express JS, MongoDB.

Mobile Development: React Native, Ionic.

Testing Framework: Jest.
